

## Screenshots of Project Working-

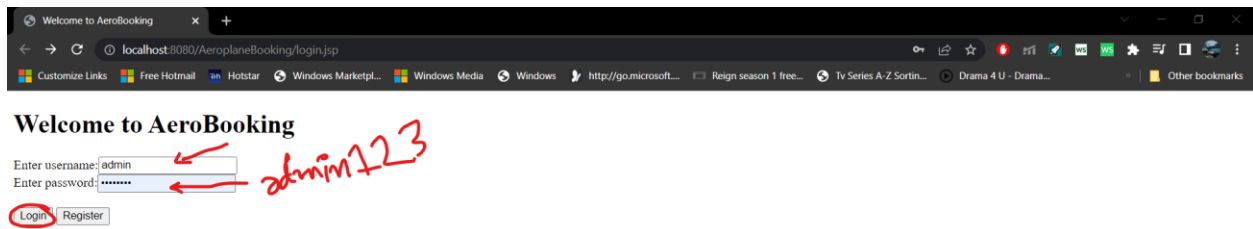

On running the **login.jsp** file using **Tomcat** server this page will reflect on the Web Browser, with two option either **Login** or **Register**.

**Picture 1-** Here the **login.jsp** screenshot

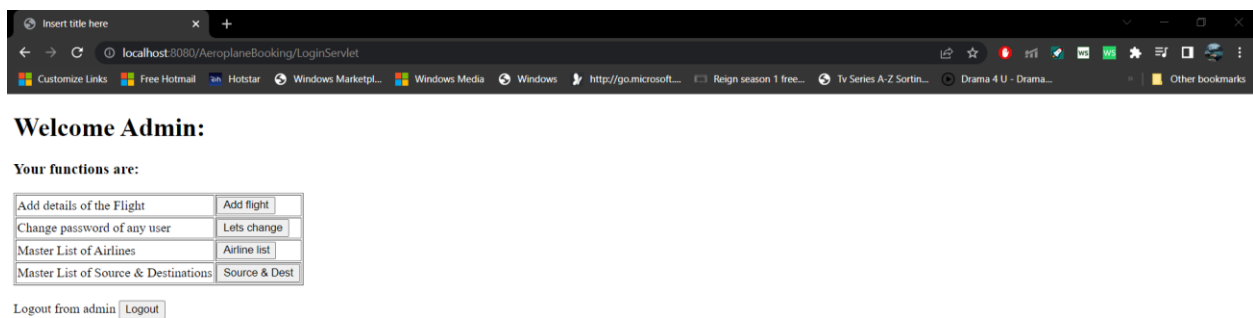

There is another option that is secret option. You can go there by entering username as **admin** and password **admin123**, this will lead you to **AdminWork.jsp** page where you can add the flight, change the password and show sources, destination and Airlines.

After entering username as **admin** and password **admin123**, after that click on **Login** button.

**Picture 2-** Screenshot after entering username **admin** and password **admin123**.

After clicking on **Login** button, it goes to LoginServlet and then it shows various function of Admin- Add flight, change password, show airlines and sources, destination.

```
mysql> select * from travel_details_aerospace;
```

48	Nick23@	Nick	Jonas	Nick Jonas	35	NickStar

9 rows in set (0.00 sec)

**Picture 12** -You can see password also changes in the database.

After changing the password the control goes to **changePasswordServlet.java** and then it goes to **ReChangePassword.jsp** with option of changing password of user and back to work admin.

If admin has selected option3 of admin function it will reflect the list of the Airlines that are available in the aerospace website.

The control will go from **AdminWork.jsp** to **Airlinelist.jsp**, you can see in the below image the list of airlines.

**Here is the list of the Flights:**

Flight name:
Harvard Airlines
Picco Airlines
Bentley Aero
Picco Airlines
SkyAir
KingFisher pvt.AirLine
Fly Emirates
Vistara
SkyAir
Pioneer Fly
SkyAir
Spice Jet
Fly Emirates
USA Jets

Add Airline name:

**Picture 13**-List of airlines available with two option of add flights and back option

The screenshot shows a web browser window with the address bar displaying `localhost:8080/AeroplaneBooking/Source&Dest.jsp`. Below the address bar, the Windows taskbar is visible, showing icons for 'Customize Links', 'Free Hotmail', 'Hotstar', 'Windows Marketpl...', 'Windows Media', and 'Windows'.

Source:	Destination:
Delhi	Mumbai
Chennai	Delhi
Chandigarh	Delhi
Vishakapatnam	Mumbai
Chennai	Delhi
Chennai	Delhi
Chandigarh	Orissa
Dharmshala	Delhi
Mumbai	Assam
Shimla	Dharmshala
Rajasthan	Delhi
Shimla	Chandigarh
Assam	Bihar
Mandi	Tripura

Suppose if the user is not admin and is normal user who want to register for aerospace. Then he can register himself/herself on **Register.jsp** page.

```
mysql> select * from user_registered;
```

SNo	Username	Fname	Lname	Name	Age	Password
3	Rahulpersie66	Rahul	Rana	Rahul Rana	24	rana
4	PersieBawa22	Persie	Bawa	Persie Bawa	45	Boolean22@
5	NishaWaikar356@	Nisha	Waikar	Nisha Waikar	50	nisha123

mysql>
```

**Picture 20-** Available flight list for travelling by aerospace in the database

On entering flight details such as Date of travel-**2022-05-11** Source-**Chennai** to Destination-**Delhi** Seats -**3**. It will hover control from **login.jsp** to **LoginServlet.java**.

And will produce a output like this as shown below. As there are 2 flights matches the criteria.

Insert title here

localhost:8080/AeroplaneBooking/LoginServlet

Customize Links Free Hotmail Hotstar Windows Marketpl... Windows Media Windows http://go.microsoft... Reign season 1 free... Tv Series A-Z Sortin...

## Search Homepage

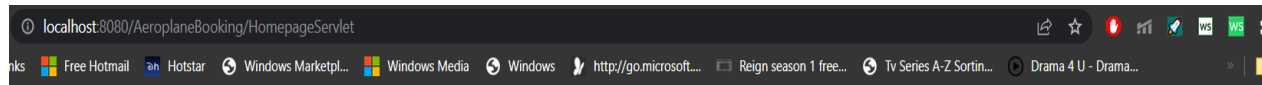

### Travel Details

Date of travel: 05/11/2022 Source: Chennai Destination: Delhi Number of person: 3

Book Flight

**Picture 21-** Entering details for flights in **LoginServlet.java**

Then the control will go from **LoginServlet.java** to **ShowFlight.jsp** & then to **homepageServlet.java** and you get a resulted output as like this.

## Available Flights

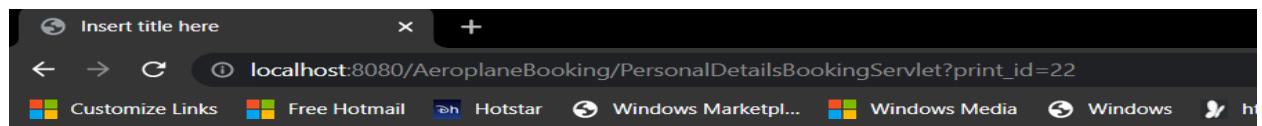

Book now from Aerospace

Flight Id	Airlines name:	Date of Flight:	From:	To:	Available Seats:	Ticket price per Person:	Book Flight
22	Picco Airlines	2022-05-11	Chennai	Delhi	35	10450.0	<a href="#">Book</a>
27	KingFisher pvt.AirLine	2022-05-11	Chennai	Delhi	38	9270.0	<a href="#">Book</a>

**Picture 22-** showing 2 flights matches the details entered

Now you can book one of them and pay the money via credit/debit card. Suppose we choose **Picco Airlines** flight for 3 per person Rs.**10450**. After selecting **Book** option for flight picco the control will go from **HomepageServlet.java** to **PersonalDetails.jsp** and the to **PersonalDetailsServlet.java**.

On next page you can enter the personal details for flight booking.

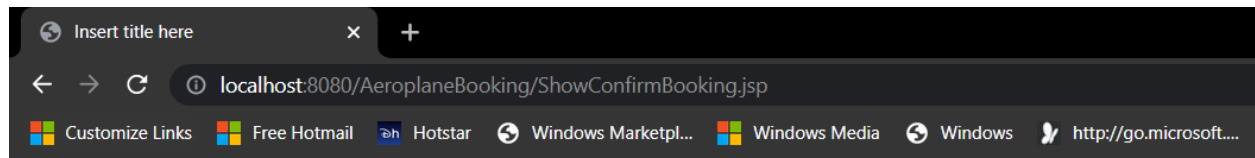

## Welcome to book the Flight

Fill the Personal Details:

Enter name:	<input type="text" value="Adam Cole"/>
Enter email:	<input type="text" value="AdaM@gmail.com"/>
Enter username:	<input type="text" value="AdamCol56@"/>
Enter age:	<input type="text" value="26"/>
Enter Adhaar:	<input type="text" value="46466784"/>
Enter address:	<input type="text" value="Madras"/>
Enter phone number:	<input type="text" value="7018548709"/>
<input type="button" value="Go to Next"/>	

**Picture 23-**Personal details for booking the flight

After personal details are entered it will go forward and show **confirm booking details**. The control will go from **PersonalDetailsServlet.java** to **ShowConfirmBooking.jsp** where all details of flight are shown and **total amount** for flight is shown (here it is Rs. **31350.0**)

## Booking for flight:-

You are booking for the flight with Flight: *Picco Airlines* and Flight Id: **22**

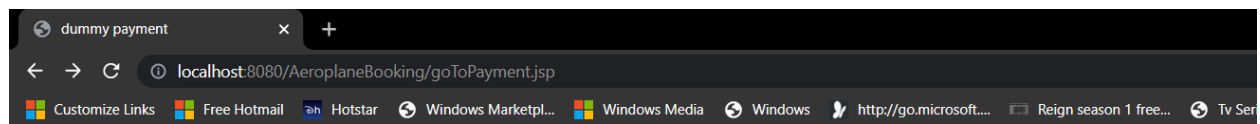

### Details of Flights:

**Flight Id** : 22  
**Airline** :Picco Airlines  
**Date of Flight** : 2022-05-11  
**Flight from** : Chennai  
**Flight to** : Delhi  
**Total seats booking**: 3  
**Total Amount** : *31350.0*

[GO To Payment](#)

## Picture 24-Confirm Booking details are shown

Then click on go to payment it will forward you to **goToPayment.jsp** where you enter dummy card details for payment.

## Payment details

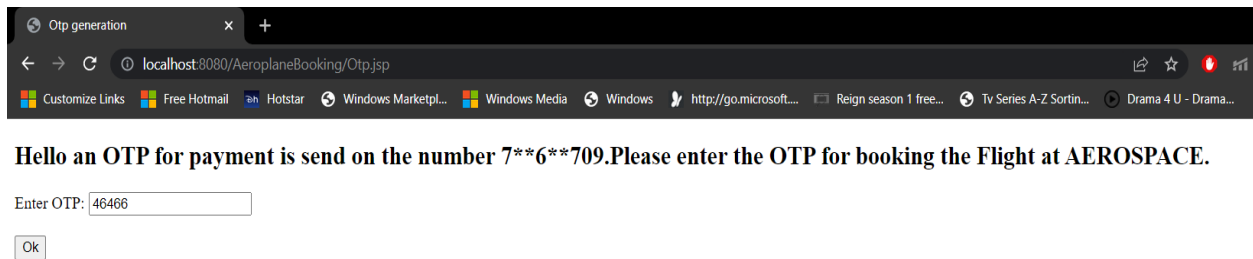

You have payment of total amount **31350.0** for Airline name **Picco Airlines** with flight id **22**. So to proceed payment, enter the debit card information and otp:

Card Number:   
Name:   
Expiry date:   
CNN:

[Generate OTP](#)

## Picture 25-After entering the card details

The control will flow from **goToPayment.jsp** to **Otp.jsp** where you entered the dummy otp for further procedure.

Otp generation

localhost:8080/AeroplaneBooking/Otp.jsp

Customize Links Free Hotmail Hotstar Windows Marketpl... Windows Media Windows http://go.microsoft... Reign season 1 free... Tv Series A-Z Sortin... Drama 4 U - Drama...

Hello an OTP for payment is send on the number 7\*\*6\*\*709.Please enter the OTP for booking the Flight at AEROSPACE.

Enter OTP:

Ok

#### Picture 26-After entering dummy OTP

The control will go from **Otp.jsp** to **paymentSuccessful.jsp** and then to **paymentSuccessfulServlet.java**, where the ticket confirmation message is displayed and greeting from Aerospace is displayed on the screen.

And details of booking are saved in table name **–seat\_booked\_flight**

```
mysql> select * from seat_booked_flight;
```
